

CO2 AI PRODUCT ECOSYSTEM COOKIE POLICY

Last update: 18 April 2023

CO2 AI (“**CO2 AI**” or “**we**”) uses cookies on CO2 AI Product Ecosystem Platform (“**Platform**”) to ensure the proper functioning of the Platform, provide a better user experience and improve the Platform.

This policy describes the categories of cookies we use and why, and how you can manage them.

1. What is a Cookie?

A "cookie" is a piece of information, usually small and identified by a name, that may be sent to your browser by a website you are visiting. Your web browser will store it for a period of time, and send it back to the web server each time you log on again.

2. What Cookies do we use and why?

2.1. Essential or Required Cookies

These cookies are essential to enable you to move around the Platform and use its core features. These cookies are also used to remember choices you make (such as your language or the region you are in), recognize the site from which you access the Platform, and provide secure, enhanced and more personal features.

2.2. Performance Cookies

These cookies are used for collecting data on how users behave on the Platform. They monitor the Platform performance and follow user actions. These cookies generate anonymous statistical data only.

3. Setting your preferences

We do not need your consent to store and access these cookies on your device, although you can still block or delete them by activating the relevant settings in your browser.

Please be aware that in order to use some parts of the Platform, you will need to allow certain essential or functional cookies. If you block or subsequently delete those cookies, some aspects of the Platform may not work properly and you may not be able to access all or part of the Platform.

4. Contact

If you have any questions about the Cookies used on our Platform, you can write to us at the following email address: support@co2ai.com.

5. Updating the Cookies Policy

We may amend this Cookie Policy from time to time, in particular to comply with any legislative or regulatory, case law, editorial or technical developments. We will notify you in the event of a material change.
